TODU GUAM FOUNDATION(TGF)

A locally and nationally recognized 501(c)(3) non-profit committed to Getting Guam Healthy One Man, One Woman, and One Child at a time!

Mission statement:

The mission of the Todu Guam Foundation is to address health disparities and promote health equity on Guam by providing access to basic healthcare, support, and education without restrictions to Guam's underserved population.

Our 6 Main Programs

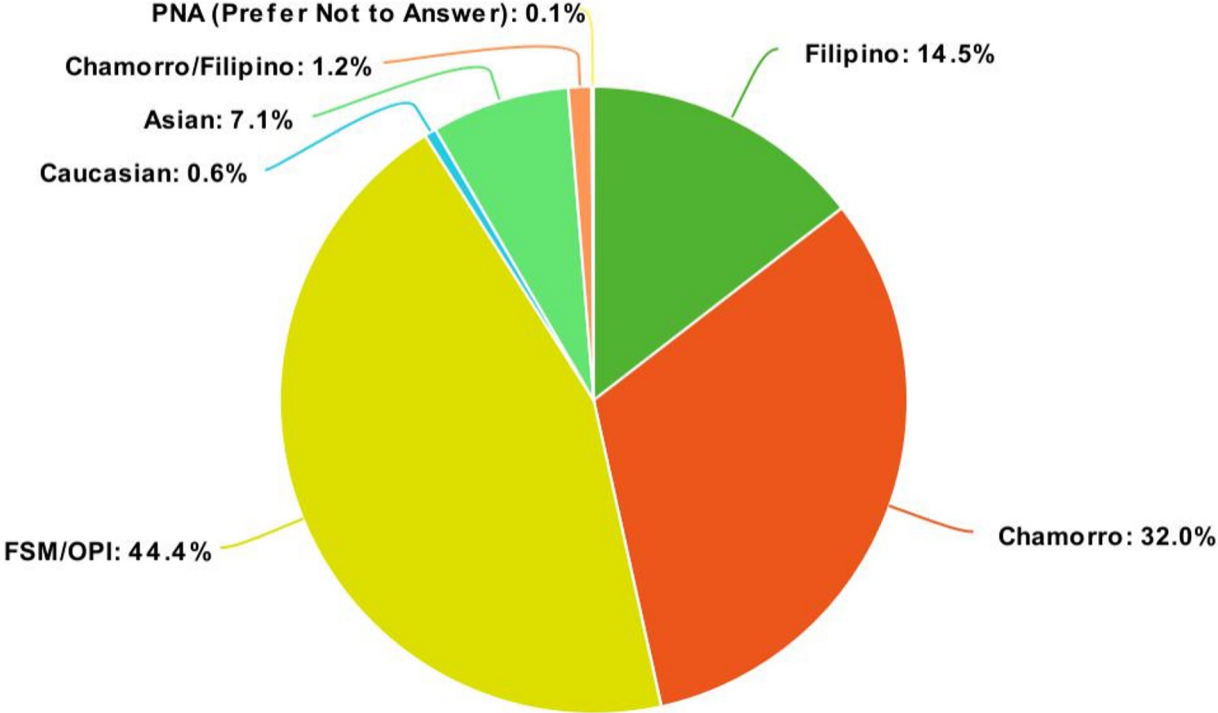

MOBILE CARE CLINIC

Our mobile clinic brings direct primary healthcare services to the hard-to-reach areas on our Island. Providing immunizations, TB skin tests, women's health care, and physical exams to the uninsured and underinsured population.

Patient education is included in every visit, as education and empowerment are at the forefront of the Todu Guam Foundation's mission of **Getting Guam Healthy One Man, One Woman, and One Child at a time!**

Ethnicity

Activities

Outreach and engagement activities to build relationships in the community for mutual support. TGF continues to utilize our Mobile Care Clinic program to deliver TB education and awareness, as well as promote screening in high-risk populations. Our partnership with the local Public Health TB Program allows us to bridge the gap in lack of community education and screening, and case management of active TB cases, while TGF continues our Mobile Clinic operations of LTBI treatment and screening.

Activities

- Provider education to TGF volunteer providers that go into the hard-to-reach areas of the community.
- Community education and outreach through TGF Mobile Care Clinic operations.
- Quality improvement in data collection and data sharing with local DPHSS TB Program.

Recognition

In 2023 as a first-time recipient of the TB Elimination Alliance Mini-Grant program, the Todu Guam Foundation received the CDC's 2023 TB Elimination Champion Award in partnership with the Guam DPHSS TB/HD Program, and the 2023 NTCA Joe T. Ware Partner Service Award!
